

AASHA FURNITURE

Production & Quality Control Policy

Controlled test-business document. Aasha Furniture is a synthetic business profile created for Agent Flux end-to-end verification. Product, customer, tax-registration, bank, contact and transaction identifiers in this package are test data and must not be treated as real-world credentials or legal records.

1. Production stages

Production Planning → Material Allocation → Manufacturing → Finishing → Quality Check → Ready for Delivery.

2. Release conditions

Operations may begin production only when the order is CONFIRMED and required advance payment has been received, unless an approved credit exception exists.

3. Quality checklist

Verify dimensions against approved specification; inspect joints and structural integrity; verify finish/colour; inspect upholstery where applicable; verify accessories/hardware; photograph completed custom work when required; record quality-check result.

4. Exceptions

Any deviation from the approved order specification requires an order revision and appropriate approval before dispatch.

Document control: Version 1.0 | Owner: Aasha Furniture Operations | Classification: Internal test data
