

AASHA FURNITURE

Quotation Policy & Procedure

Controlled test-business document. Aasha Furniture is a synthetic business profile created for Agent Flux end-to-end verification. Product, customer, tax-registration, bank, contact and transaction identifiers in this package are test data and must not be treated as real-world credentials or legal records.

1. Mandatory quotation fields

Quotation number, quotation date, validity date, customer identity/contact, product/SKU, quantity, unit price, customization, discount, taxable value, GST, total, payment terms, delivery estimate and acceptance instructions.

2. Validity

Standard quotation validity is 15 calendar days from quotation date. A quotation that has expired must be revalidated before conversion to an order.

3. Approval

Quotations requiring discount, high-value order approval, custom manufacturing approval or credit terms must not be marked APPROVED until the required human approvals are complete.

4. Customer acceptance

Acceptance may be captured through an approved customer response channel. Agent Flux should retain the acceptance timestamp and link it to the quotation/order.

5. Revision control

Any material change to price, quantity, product specification, discount or payment terms creates a new quotation revision. The previous revision must remain auditable.
