

AASHA FURNITURE

Payment Due, Reminder & Collections Policy

Controlled test-business document. Aasha Furniture is a synthetic business profile created for Agent Flux end-to-end verification. Product, customer, tax-registration, bank, contact and transaction identifiers in this package are test data and must not be treated as real-world credentials or legal records.

1. Reminder schedule

Timing	Action
3 days before due date	Friendly payment reminder
Due date	Due-today reminder
1 day overdue	First overdue reminder
3 days overdue	Second overdue reminder + Finance review
7 days overdue	Escalation to Finance Manager/Owner
15+ days overdue	Collections decision; new production/delivery may be blocked

2. Message principles

Payment reminders must identify the invoice/order, amount due and due date without exposing unnecessary customer information.

Do not send repeated reminders for the same event when a previous notification was successfully recorded unless the next scheduled escalation is reached.

3. Workflow requirements

Scheduler checks eligible invoices; eligibility is determined from invoice status, due date, outstanding balance and reminder history.

If payment is received before a scheduled reminder executes, the reminder must be suppressed.

Reminder actions must be auditable.
