

AASHA FURNITURE

Order & Booking Management Policy

Controlled test-business document. Aasha Furniture is a synthetic business profile created for Agent Flux end-to-end verification. Product, customer, tax-registration, bank, contact and transaction identifiers in this package are test data and must not be treated as real-world credentials or legal records.

1. Order creation criteria

An order may be created only after a valid quotation is accepted and all mandatory customer/order information is available.

Orders requiring approval must have all required approvals recorded before production is released.

2. Order statuses

Status	Meaning
DRAFT	Order information is being prepared
CONFIRMED	Customer accepted and required approvals completed
ADVANCE_PENDING	Order confirmed but required advance is not yet recorded
IN_PRODUCTION	Production has started
QUALITY_CHECK	Finished item awaiting inspection
READY_FOR_DELIVERY	Quality check passed
DELIVERED	Delivery/installation completed
COMPLETED	Financial and operational closure complete
CANCELLED	Order cancelled under policy

3. Mandatory order fields

Order ID, quotation ID, customer ID, product/SKU, quantity, approved price, discount, GST, total, advance requirement, delivery address, requested delivery date and responsible owner.

4. Cancellation

Before production: cancellation may be processed according to the refund policy.

After production starts: cancellation requires Operations/Management review because custom manufacturing costs may already have been incurred.
